

Project Initialization and Planning Phase

Date	25 June 2026
Team ID	xxxxxx
Project Name	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A farmer in India managing multiple crop fields	Select the most suitable crop based on my soil and environmental conditions	I lack scientific knowledge about which crop suits my soil's NPK levels, pH, temperature, humidity, and rainfall conditions	Traditional farming relies on guesswork and outdated seasonal patterns rather than data-driven analysis	Anxious about potential crop failure, financial loss, and wasted resources on unsuitable crops
