

Solution Architecture

Date	25 June 2026
Team ID	xxxxxx
Project Name	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	5 Marks

Solution Architecture Diagram:

Provide a high-level visual representation of your solution's architecture. Use the structural layout below as a template to map out your Presentation Layer, Application Layer, and Data Layer. Fill in the specific technologies and components for your project directly into the boxes to create your architectural diagram.

Component Description Table

Component Name	Description / Role in Architecture	Technologies Used
Presentation Layer	Provides responsive web UI for parameter input and result display	HTML, CSS, Bootstrap
Flask Server	Handles HTTP routing, form processing, and serves templates	Python, Flask
ML Prediction Engine	Loads trained model, processes user inputs, returns crop prediction	Scikit-learn, Pickle
Data Storage	Stores training dataset and serialized model file	CSV, Pickle (.pkl)
