

Project Executable Files

Date	25 June 2026
Team ID	xxxxxx
Project Name	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	3 Marks

Project Executable Files

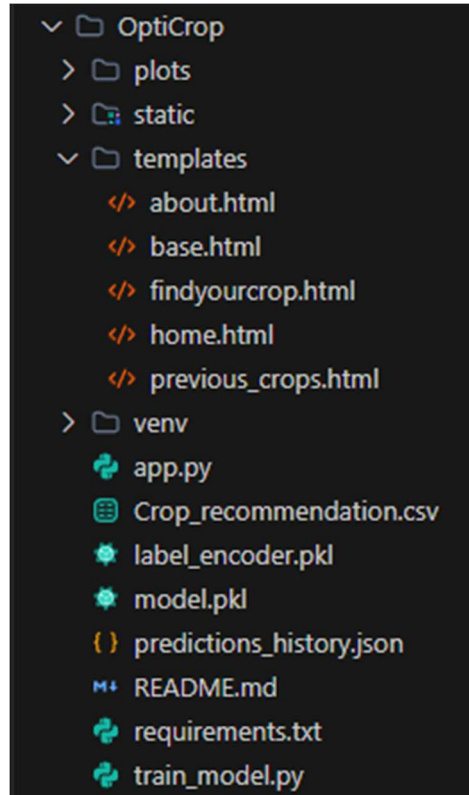

This section requires submission of all executable and deployable files for your project. Ensure all files are properly organized, named, and uploaded to the specified submission platform. The evaluator must be able to run or deploy your solution using the provided files and instructions.

Step 1: Submission Checklist

S.No	Item to Submit	Submitted (Yes / No / NA)
1	Complete source code (all files and folders)	Yes
2	README / Setup Guide (instructions to run the project)	Yes
3	requirements.txt / package.json / dependency file	Yes
4	Database schema / seed files (if applicable)	NA (CSV-based)
5	Environment configuration file (.env.example or similar)	NA
6	Deployed application URL (if hosted)	
7	APK / Executable binary (if applicable for mobile/desktop apps)	NA
8	Dockerfile / Containerization config (if applicable)	NA
9	Test files and test results	Yes
10	Demo video or walkthrough (if required)	Yes

Step 2: File / Folder Structure

Provide an overview of your project's file and folder structure below:

Step 3: Deployment / Access Details

Field	Details
Hosted / Deployed URL	http://127.0.0.1:5000 (Local) / Website
Login Credentials (Demo)	No login required — open access
Platform / Hosting Provider	Local Flask Development Server/Render
Repository Link	GitHub Link
Demo Video Link	

Step 4: Run Instructions

Provide clear, step-by-step instructions for the evaluator to run your project locally:

1. Install Python 3.10+ from <https://www.python.org/downloads/>
2. Clone the repository: `git clone <repo-url>`
3. Navigate to project folder: `cd OptiCrop`
4. Install dependencies: `pip install -r requirements.txt`
5. Run the application: `python app.py`
6. Open browser and go to: `http://127.0.0.1:5000`
7. Navigate to "Find Your Crop", enter parameters, and click "Predict"

Step 5: Known Issues / Limitations

S.No	Known Issue / Limitation	Workaround / Status
1	No user authentication — anyone can access the app	Planned for future version
2	Model doesn't update with new data automatically	Requires manual retraining and model replacement
3	Only supports local deployment	Cloud deployment (Render/Heroku) planned for future
